## Biodiesel Usage—John Deere

**B5 is the preferred fuel for all Deere engines**

B2 is still used as a factory fill in North America

**Deere does not warrant fuels**

**Should use Deere approved detergent/dispersant additive with all blends**

**Must use Deere approved detergent/dispersant additive at B20 and beyond**

**Detailed information appears @JohnDeere.com**

# Biodiesel Usage—John Deere

**Question:**

**Why does John Deere prefer B5?**

## Biodiesel Usage—John Deere

**Answer:**

# QUALITY

## Biodiesel Usage—John Deere

### Shipment to John Deere, Late 2007
